PROFESSIONAL SUMMARY

Frontend developer building responsive websites and applications with React, Next.js and TypeScript. Combines hands-on development projects with professional UI design experience and 8+ years of freelance graphic design. Experienced in AI-assisted design and development workflows, with strengths in visual hierarchy, client communication and translating requirements into usable interfaces. Seeking junior frontend or web developer opportunities.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React, Next.js App Router, HTML5, CSS3, Tailwind CSS, DaisyUI, React Router and responsive design.

Backend fundamentals / ongoing learning: Node.js, Express.js, CRUD operations, REST APIs and MongoDB. **Project experience:** PostgreSQL, Prisma, Firebase Authentication, NextAuth and Zod.

Tools & practices: Git, GitHub, Vite, VS Code, Figma, reusable components, API integration and form validation.

AI-assisted workflows: ChatGPT and GitHub Copilot for coding assistance, debugging and research; AI-supported visual ideation and image refinement, with manual review and iteration.

SELECTED DEVELOPMENT PROJECTS

Freano | Personal Finance Web Application

Live: freano.almamuncool.com/

- Built a responsive personal finance application with Next.js, TypeScript and Tailwind CSS, combining interface design with application development.
- Integrated PostgreSQL and Prisma for data persistence, NextAuth for authentication and Zod for validation.

Ember & Oak | Restaurant Website

Live: ember-oak-lime.vercel.app/

- Created a fictional restaurant website with categorized menus, brand presentation and responsive desktop and mobile interfaces.
- Applied restaurant design experience to typography, visual hierarchy and consistent presentation of menu content.

AI Pulse | AI News Application

- Built a React and TypeScript news application using Vite, DaisyUI and RSS feeds as the content source.

Additional project: FitLog, a Next.js workout application. Hands-on development projects and training since April 2025.

PROFESSIONAL EXPERIENCE

UI Designer | Algorify Labs Ltd.

October 2025 - March 2026 | Full-time | Dhaka, Bangladesh

- Designed responsive website and product interfaces in Figma, translating requirements into developer-ready UI designs.
- Collaborated with a product team on requirements, design feedback and timely delivery.

Freelance Graphic Designer | Fiverr

March 2020 - Present | Remote

- Manage international client briefs, revisions, deadlines and delivery of restaurant menus, brand graphics, print and digital design projects.
- Completed 3,000+ design projects across platforms; earlier freelance work on Freelancer.com from March 2015 to September 2021.

EDUCATION & TRAINING

Bachelor of Arts (Pass) | National University, Bangladesh

Programming Hero | Mission AI-Driven Full-Stack Web Engineering | Ongoing, 2026

LinkedIn Learning | JavaScript Essential Training; Learning ECMAScript 6+ (ES6+) | October 2026
