Remote roles, contract projects and agency collaborations

PROFESSIONAL SUMMARY

Graphic designer with 8+ years of freelance experience and 3,000+ completed design projects across platforms. Creates logos, brand identity, print materials and digital marketing graphics for international clients, with a strong specialization in restaurant and hospitality design. Combines typography, layout, print production and client communication with professional UI design experience and hands-on web development skills.

CORE SKILLS

Design: Logo and brand identity, flyers, posters, social media graphics, menu design, digital menu boards, typography, layout, photo editing and print-ready artwork.

Tools: Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Figma and Canva.

Additional digital skills: Responsive UI design, React, Next.js, TypeScript, Tailwind CSS, HTML, CSS, JavaScript and Git/GitHub.

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer | Fiverr

March 2020 - Present | Remote

- Create logos, brand graphics, flyers, promotional posters and social media materials for restaurant and business clients across the US, UK and Europe.
- Specialize in print and digital menus, including single-page, double-sided, bi-fold, tri-fold, booklet and TV menu formats; prepare editable files and print-ready artwork.
- Manage projects from brief to final delivery, including concepts, client communication, revisions, deadlines, photo editing and ongoing design updates.
- Fiverr Level 2 Seller with a 4.9-star rating. Selected clients include Bocaire Country Club, Chef's Corner, Brain Buzz and SMASH44.

UI Designer | Algorify Labs Ltd.

October 2025 - March 2026 | Full-time | Dhaka, Bangladesh

- Designed responsive website and product interfaces in Figma, translating business requirements into clear, developer-ready UI designs.
- Collaborated with a product team on requirements, feedback and timely delivery.

Freelance Graphic Designer | Freelancer.com

March 2015 - September 2021 | Remote

- Delivered logo and brand identity projects for international clients, managing requirements, remote communication and project delivery.
